

## ISN'T IT ROMANTIC

*Words and Music by Ladd Biro and Dan Schneider*

Isn't it romantic  
The way we've lost all track of time  
Isn't it romantic  
The way the stars light up the sky  
Like an April evening in Paris  
People pass us by  
But we don't even know they are there  
'cause it's just the two of us, without a care

And I'm falling in love with you  
Something I said, I wouldn't do but there's too many things  
I just can't resist  
Your eyes...your touch...your kiss

Isn't it romantic  
A corner table by candlelight  
Isn't it romantic  
A conversation that just fills up the night  
And it's all because of you, and the things you say and do  
Let's make tonight a night to remember  
we can only hope could last...last forever

And I'm falling in love with you  
Something I said, I wouldn't do but there's too many things  
I just can't resist  
Your eyes...your touch...your kiss

And I've fallen in love with you  
Like I said I wouldn't do  
But isn't it romantic...isn't it romantic...isn't it romantic  
Just falling in love

## GOODBYES

*Words and Music by Ladd Biro & Dan Schneider*

To many loves many end in goodbye  
Start with a kiss, then somebody cries  
And we run away from what we don't understand  
Never playing the cards we hold in our hand  
And when will I learn not to let myself fall  
What's it all mean now  
Why does love always end in goodbye

When there's so many other words we could say  
So many other feelings we could let get in the way  
Why goodbye, can't we just rewrite the ending  
What's the use in us pretending  
There's something good, when there's nothing good about goodbyes  
Where does love go when it's gone

Does it find someone else to play it's song  
And what does it take, to make love stay  
Is it loneliness that chases it away  
And when will I learn not to let love in  
Where does it lead now  
Why does love always end in goodbye

When there's so many other words we could say  
So many other feelings we could let get in the way  
Why goodbye, can't we just rewrite the ending  
What's the use in us pretending  
There's something good, when there's nothing good about goodbyes

It's easy to fall  
And it's easy to say you'll give it your all  
But it's hard to walk away, and harder still to say goodbye  
'Cause there nothing good, good about goodbyes

## IT ALL BEGAN WITH YOU

*Words and Music by Ladd Biro and Dan Schneider*

Are you just a fantasy, or a dose of reality  
Never met a girl like you  
Didn't care if I would live or  
Didn't have a thing I could live for  
Did I find myself when I just lost myself in you

It doesn't matter where you are  
Just know my heart is not very far  
In the morning hours until the day is through  
When you're looking up at me,  
there's only love in your eyes that I can see  
I found the reason to live and the reason begins with you

Was I independently, selfish with certainty  
thought I'd seen it all before  
From the day we met I knew then  
I could be myself and not pretend  
Suddenly my life was clear that love would see me through

It doesn't matter where you are  
Just know my heart is not very far  
In the morning hours until the day is through  
When you're looking up at me,  
there's only love in your eyes that I can see  
I found the reason to live and the reason begins with you

Some days, I remember the long days and dark lonely nights  
When the world alive was just outside my door  
Your ways, were like keys made to open my heart  
I could never love you more

It doesn't matter where you are

#### ONE HEART AT A TIME

*Words and Music by Dan Schneider*

Who know why we fall in love  
When we fall in love it's a mystery  
How everything seems to fall in place  
How in love's embrace your heart finds it's wings  
That's how it is when I look at you  
Every dream comes true in an instant

And I believe in love again  
In falling stars and fairytale ends  
So if by chance you believe it too  
Then who knows what we will find  
If we take love one heart at a time

So don't tell me its infatuation  
Or my imagination 'cause I've never felt like this  
'Cause all I need is to see you smile  
and my heart takes off for the moon

And I believe in love again  
In falling stars and fairytale ends  
So if by chance you believe it too  
Then who knows what we will find  
If we take love one heart at a time

I never dreamed it'd happen to me  
Never dreamed that I'd find love  
It's almost like it's meant to be  
When I look at you, there's no place  
That my heart would rather be

And I believe in love again  
In falling stars and fairytale ends  
So if by chance you believe it too  
Then who knows what we will find  
If we take love one heart at a time

#### MARGO

*Words and Music by Ladd Biro*

Margo, I don't know what to say  
'Cause Margo, I don't know how to play  
This game you're playing, your game of life  
Has really got me feeling like I walk on ice  
Though you've been hurt and you've been shaken,

you really don't want me to fall  
You can't conceal it, you know you feel it,  
if this is it you've got to let me know

Will there ever come a time when we ever say goodnight,  
Ever come a time when we welcome morning's light  
Ever come a time when I feel you're not pushing away  
You don't want to wake up alone anymore,  
and yet you keep me outside your heart's locked door  
who am I the fool that I am to love, a girl like you

Margo, I don't know what to do  
'Cause Margo, don't know how to get through  
The moat is deep and the wall is high,  
and when I see you I just have to wonder why  
I can feel that you want to reveal, all the dreams of your own  
You just can't hide it, don't try to fight it  
If this is it you've got to let me know

Will there ever come a time when we ever say goodnight,  
Ever come a time when we welcome morning's light  
Ever come a time when I feel you're not pushing away  
You don't want to wake up alone anymore,  
and yet you keep me outside your heart's locked door  
who am I the fool that I am to love, a girl like you

#### NOTHING'S SAID

*Words and Music by Ladd Biro*

Nothing's said, when I cross the room at night to kiss your head  
You smile and pull away, as if to say not tonight  
And times seem forever lost, times you used to run to hold my hand  
You used to try to understand the dreams I thought we'd share  
But something's changed 'cause you're acting like you  
really just don't care

Oooooo...Can't you feel it one more time  
Feel the love we had before  
At least I've got memories, of only you and me  
But nothing's said

Rest my head on your pillow late at night across the bed  
Maybe it's cause we're older, or maybe just colder today  
'Cause times seem forever lost, times we'd revel at a touch  
When ever moment meant so much  
When love was all we had, but can we say  
That we have more than we had when we began

Oooooo...Can't you feel it one more time  
Feel the love we had before  
At least I've got memories, of only you and me  
But nothing's said

Over and over like the winds blowing out to sea  
Words of love are spoken, but only by me  
Surface waters are ruffled while the depths remain untouched  
Is your heart an ocean, have we grown apart so much  
Oooooo...Can't you feel it one more time  
Feel the love we had before  
At least I've got memories, of only you and me  
But nothing's said

#### I WOULD WAIT FOREVER

*Words and Music by Dan Schneider*

I walk the night  
Thinking of things we said  
Dreams we had that somehow fell apart  
When did we learn to break each others hearts  
And make each other cry

Tell me somewhere inside  
There's still a flame that's burning  
Tell me we're not strangers after all  
Hold me now and save us from the fall  
'cause I know in my heart there's still chance for us

I would wait forever, if it takes forever  
I would wait a lifetime if you...  
Would say that you still love me  
You're still dreaming of me  
The one who makes your dreams come true  
Look in my eyes, there's still a fire  
That burns deep inside for you  
And I would wait forever  
Baby if forever means you

I still believe  
That we can make it somehow  
Look into my eyes and you will see  
The one that you still love  
The one who needs  
Needs to hear you say that you still love me

I would wait forever, if it takes forever  
I would wait a lifetime if you...  
Would say that you still love me  
You're still dreaming of me  
The one who makes your dreams come true  
Look in my eyes, there's still a fire  
That burns deep inside for you  
And I would wait forever  
Baby if forever means you

It's my life  
I wanna spend it with you  
For all time...

I would wait forever, if it takes forever  
I would wait a lifetime if you...  
Would say that you still love me  
You're still dreaming of me  
The one who makes your dreams come true  
Look in my eyes, there's still a fire  
That burns deep inside for you  
And I would wait forever  
Baby if forever means you

#### REACH OUT

*Words and Music by Ladd Biro and Dan Schneider*

When you look out at the world what do you see  
And when you look out at the world are things as they should be  
Do you see the man in the street, beaten by life  
but still trying to make ends meet  
Have you never felt kicked to the curb and wondered  
if somebody cared

Reach out, when you see a heart breaking  
Reach out, like you do when your praying  
Have you ever held tight to a hand  
Or given God thanks when he shows you the plan  
Reach out and touch the lives around you  
Are you known for the things that you give or the things you take

So are you out to climb up the ladder of success  
And are you out to show to the world that you are the best  
Is your life like a beacon of light, or do you darken others'  
To make your own seem bright  
Have you guided and been there for someone,  
as someone has been there for you

Reach out, when you see a heart breaking  
Reach out, like you do when your praying  
Have you ever held tight to a hand  
Or given God thanks when he shows you the plan  
Reach out and touch the lives around you  
Are you known for the things that you give or the things you take

And when the road you travel on feels empty  
And when you feel you can't go on, you've been all you can be  
Reach, for the voice that feels like thunder  
Don't wonder, just spread your wings and fly, touch the sky

Preacher Schpeal

Reach out, when you see a heart breaking  
Reach out, like you do when your praying  
Have you ever held tight to a hand  
Or given God thanks when he shows you the plan  
Reach out and touch the lives around you  
Are you known for the things that you give or the things you take

#### WHY DON'T WE FALL IN LOVE

*Words and Music by Ladd Biro*

The time is right, the stars are bright  
Why don't we fall in love  
Just the moment that we know it,  
Don't you think we ought to show it  
Hey, why don't we fall I love

It doesn't matter where on earth we're goin'  
As long as you're with me this feelin' forever growing  
The time is right, so hold me tight  
Why don't we fall in love

The moment here and you are near  
Why don't we fall in love  
Just this game is ours for playin'  
And the moon's been all but sayin'  
Hey, why don't you fall in love

There are no clouds with a silver lining  
'Cause when you're here with me the sun seems forever shining  
The time is right, so just hold me tight  
Why don't we fall in love

#### NO ONE'S TALKING

*Words and Music by Ladd Biro and Dan Schneider*

No one's talking we haven't said a word  
No one's talking, or haven't you heard  
Our lives go on almost like they used to be  
The only thing's that changed are your feelings for me

No one's laughing, the way we used to laugh  
No one's smiling like in our old photographs  
We're trying hard not to look into each other's eyes  
Wondering who will be the first to say goodbye

For all the things that we've been through  
Losing you is so hard to do

Can't we give it one more try again  
Maybe if we took the time, to hear each other's hearts and minds  
Forget about the past and maybe then,  
we'd find our way back to love again

But no one's saying the words we used to say

Like I love you and how was your day  
Can we take them back, all the angry words we've said  
Tell me when did we start sleeping on separate sides of the bed

Maybe if we took the time to hear each other's hearts and minds  
Forget about the past and maybe then  
We'll find our way back to love again.

#### LIES

*Words and Music By Dan Schneider*

The sleepless nights  
You keep me waiting by the phone  
It's just not right  
I try to call you're never home  
You're looking at me with innocent eyes  
I've heard it before it's nothing but lies  
You don't know just what it's like to love you  
and find you're always on the run  
How can two hearts ever beat as one

When you're giving me lies  
Nothing but lies  
You break my heart with lies  
You're telling me lies  
It's only lies, nothing but lies

The neon lights  
You're on the town without a care  
You don't think twice  
You play around it's just not fair  
You're looking for love you better think twice  
You're breaking my heart with all of your lies  
You don't know just what it's like to love you  
and find you're always on the run  
How can two hearts ever beat as one

When you're giving me lies  
Nothing but lies  
You break my heart with lies  
You're telling me lies  
It's only lies, nothing but lies

You hold my heart in your hand  
It's not so hard to understand  
I can't go on when you're living a lie

When you're giving me lies  
Nothing but lies  
You break my heart with lies  
You're telling me lies  
It's only lies, nothing but lies
